

TESTIMONIALS

"The integration of FlowFit has completely changed the process of the linguistic services team at Ceridian Services. We were able to put aside our multiplatform manual processes by integrating a single solution for all the necessary tasks such as: the distribution of work, routing and reporting of tasks. This allowed us to make substantial business decisions and save an enormous amount of time."

Melanie Beauchamp,
Team Leader, Linguistic Services

"We were very impressed with the service provided by the Consoltec team, who spared no effort to ensure their product met our needs. Today we couldn't do without FlowFit, a tool that has made managing translation projects easier for our employees, clients and freelancers."

Jane Finlayson C. Tr.,
Language Services Manager

"FlowFit is a very efficient and easy-to-use software. It is also fully integrated to our translation tool LogiTerm. Consoltec's team is very professional and knows its product extremely well. They listen to their clients and are constantly making improvements to their software."

Claude Dréano,
Translation Services Manager

50%

SAVE TIME AND MONEY

With FlowFit, the management and work distribution of multiple translators is simplified!

FlowFit increases your productivity and eliminates repetitive tasks, allowing you to focus on other business and income-generating activities.

FlowFit is the solution that simplifies your team's workload!

THE SOLUTION TO YOUR TRANSLATION PROJECT MANAGEMENT NEEDS

Time management is without doubt a fundamental process for all businesses. FlowFit's strength lies in its approach of maximizing cost control, completing projects within tight deadlines, distributing and monitoring operations, managing and updating of documents and much more.

Our translation management system offers a complete solution that facilitates the translation process. FlowFit follows every step of the translation process and produces a full report for all your projects, facilitating the overall process. Additionally, it generates complete reports and minimizes operating costs.

WHY USE FLOWFIT?

FlowFit streamlines the application process by freeing you from repetitive administrative tasks.

With accurate and precise statistical reports, FlowFit allows you to make informed decisions in optimizing management, planning and monitoring cost control of your translation projects.

- o Collaborative application
